Frontend Developer(React)

## Projects

**Glossier** [Live Demo Link](#) [Github Repo Link](#)

HTML , CSS , JAVASCRIPT, REACT

- Developed a responsive web application using **React.js** framework
- Implemented **HTML** and **CSS** to create visually appealing and user-friendly user interfaces
- Utilized **JavaScript** to add interactive features and functionality to the application
- Worked independently to design and develop the entire project
- Ensured cross-browser compatibility and responsive design for optimal performance

**Boat Clone** [Live Demo Link](#) [Github Repo Link](#)

HTML,CSS,JAVASCRIPT

- Developed an online E-commerce application with user registration, authentication, and payment features
- Designed and implemented a user-friendly front-end interface
- Collaborated with a team of 4 members to complete the project in 5 days
